Organized as a materia medica (names and descriptions of herbs/plants are listed alphabetically), the book explains the use of the whole plant (not just "active ingredients") in the treatment of the whole person and describes symptoms and conditions that the plants have been successful in treating—from digestive ailments, headaches, and high blood pressure to asthma, skin rashes, and allergies, to name a few. Wood, who has systematically

studied ancient and traditional herbal literature, takes a historical view and presents information in a thoughtful, engaging, nontechnical style. Additionally, you'll find: Sections on cleansings, immunity, life stages, and body systems; a complete A to Z of diseases and treatments; and a section on first aid. Instructions for making your own herbal teas, decoctions, tinctures, ointments, oils, and more. And because the herbs used in this book are widely available in health food stores, drug stores, and grocery stores—some you'll even find growing in your own backyard—incorporating a greater range of beneficial herbs into your life will be all the more simple. Open the book to any page and you'll feel like you've stumbled upon Mother Nature's best-kept secrets.
