

Gis Exam Question And Answer

Locate your place in the exciting field of GIS In existence since 1962, Geographical Information Systems (GIS) are really coming into their own today. And not just in your car's GPS system or your cell phone's tracking capabilities. GIS is finding applications throughout science, government, business, and industry, from regional and community planning, architecture, and transportation to public health, crime mapping, and national defense. Michael DeMers's Fundamentals of Geographic Information, Fourth Edition brings an already essential text up to date, capturing the significant developments in the field and responding to the needs of a diverse set of readers, from geographers to students in a host of other fields. If you are a non-geographer or new to GIS, get a quick introduction to the "lay of the land" of GIS through the new "Spatial Learner's Permit" section. Then join in the excitement of discovery with GIS databases as you absorb the such concepts and skills as digital geographic data and maps, GIS data models, spatial analysis, measurement and classification, cartographic modeling, and GIS design. Responding to both the needs and technical skills of today's students, this Fourth Edition: * Makes concepts accessible to students from a wide range of backgrounds * Offers more practical and relevant coverage of GIS design and implementation * Reflects the latest changes in GIS applications * Examines in greater depth the underlying computer science behind GIS * Uncovers the most recent developments on GIS research * Expands coverage of the increasingly robust literature on cartographic visualization * Includes Web-based labs and links to current and updated dataset resources Taking an open-ended, hands-on approach that gets you to ask your own questions about the underlying concepts, the Fourth Edition helps you not only master the basics but acquire the active problem-solving skills that are a key component of success in the GIS industry.

Hepatology is an expanding field – it's hard to keep up. The liver has been sitting there the whole time, but the knowledge surrounding this perplexing organ is exploding; this makes it hard to prepare for board and recertification exams, where 1 in every 4 questions pertains to hepatology. Until now, there has been no single, slim, but high-yield volume that summarizes the hepatology you need to know for the boards. This book has it nailed. The authors have collected every pearl of wisdom, high-yield factlet, liver "board buzzword," hepatic micrograph, and classic liver imaging study they could muster, all while keeping the book a manageable size - because who has time for more than manageable when you're busy? The answer to your study questions (and study time!) can be found inside: *Acing the Hepatology Questions on the GI Board Exam: The Ultimate Crunch-Time Resource*. Traditional textbooks usually feature long and detailed discussions that are not directly related to Board and recertification exams. On the flip side, many Board review manuals provide lists and bullet points lacking sufficient background and context. Inside *Acing the Hepatology Questions on the GI Board Exam*, Drs. Brennan Spiegel and Hetal Karsan present time-tested and high-yield information in a rational, useful, and contextually appealing format. Why You Will Need to Read *Acing the Hepatology Questions on the GI Board Exam*: Focuses exclusively on Hepatology review – an area that comprises 25% of the Board exam Carefully vetted board-style vignettes with color images Comprehensive yet succinct answers using a high-yield format Emphasis on key clinical pearls and “board buzzwords” Answers to classic board "threshold values" questions that you need to know but always seem to forget: If an echinococcal liver cyst exceeds XX cm, then the risk of rupture is clinically significant and surgery is warranted Rapid fire crunch-time exam with 135 classic one-liners such as: Spider web collaterals + caudate lobe hypertrophy = Diagnosis Stepwise fever + temperature-pulse dissociation + rose spots + hepatitis = Diagnosis With its focus on pearl after pearl, emphasis on images, and attention to high-yield “tough stuff” vignettes you don't know the answers to (yet), *Acing the Hepatology Questions on the GI Board Exam* is truly the ultimate crunch-time resource for acing often vexing liver section of the examination, taking recertifying examinations, looking good on clerkship rounds, or for just challenging yourself with interesting and entertaining vignettes. Comprehensive step-by-step solutions illustrate efficient problem-solving approaches and link common situations in current surveying practice to background information and history.

Sustainable Parking Management provides the latest research findings in the field, encouraging transport planners and policymakers to use parking policy as a tool for managing parking and transport systems. The book teaches up-to-date parking management techniques for selecting parking policies and understanding parking behavior when faced with policy interventions. It shows when to apply each policy, how to include user attitudes in policy definition, and how to model user behavior when refining parking policies. In addition, it stresses the need to reduce overall city driving and the need to allow users to choose the transport mode that best suits their needs. As the growth of cities and car dependency worldwide has led to parking problems resulting in increased traffic congestion, pollution, and overall urban chaos, this book creates a model to help deal with the fallout. Offers step-by-step procedures for defining sustainable parking policies Synthesizes the latest research into one source Links theoretical knowledge with hands-on best practices from around the world Includes learning aids, such as chapter openers, textboxes, end-of-chapter review questions, and a glossary
