Intended for the use of sheriffs' departments, this manual presents methods of addressing two crucial resource allocation issues: (1) the total number of officers required to provide an acceptable level of traffic services and (2) how a specified total number of officers should be allocated by geographic regions or time periods to produce the maximum agency productivity. The staffing and allocation methods are based on a review of procedures currently used by State and provincial agencies throughout the United States and Canada. Individual chapters present an overview of the model, worksheets and instructions for a step-by-step process for determining staffing levels, and a worksheet for determining staff allocations over several geographic areas or time periods. Guidelines for using the manual, forms, and appended supplemental worksheet and tables.

"Transcultural Nursing Theory and Models: Application in Nursing Education, Practice, and Administration is a must read for the nurse currently practicing. National and global changes in demographics, a changing global economy, have further dramatized the need for culturally competent nurses. I found this book to be what I had hoped for and more related to my understanding of the concept of transcultural nursing (TCN)....I would highly recommend this book to any nurse who is looking to deepen her understanding of the many diverse cultures she encounters at the bedside, or out in the community using components of the theory, models and assessment guide presented in this book."--Advance for Nurses "This book makes a worthwhile contribution to the field of transcultural nursing by complementing texts that

introduce theory and models or delve into them individually and more deeply. Sagar contributes her expertise as a Transcultural Nursing Scholar by focusing on how to use the models and guide. She explains and shows the readerhow transcultural nursing theory can be disseminated and implemented."--Online Journal of Cultural Competence in Nursing and Healthcare This volume is the first to examine and promote the application of current, major transcultural nursing (TCN) theory and models and assessment tools in nursing education, practice, and administration. Healthcare providers, consumers, researchers and policy makers are inundated with unmanageable amounts of information, including evidence from healthcare research. It has become impossible for all to have the time and resources to find, appraise and interpret this evidence and incorporate it into healthcare decisions. Cochrane Reviews respond to this challenge by identifying, appraising and synthesizing research-based evidence and presenting it in a standardized format, published in The Cochrane Library (www.thecochranelibrary.com). The Cochrane Handbook for Systematic Reviews of Interventions contains methodological guidance for the preparation and maintenance of Cochrane intervention reviews. Written in a clear and accessible format, it is the essential manual for all those preparing, maintaining and reading Cochrane reviews. Many of the principles and methods described here are appropriate for systematic reviews applied to other types of research and to systematic reviews of interventions undertaken by others. It is hoped therefore that this book will be invaluable to all those who want to understand the role of systematic reviews, critically appraise published reviews or perform reviews themselves.

This book builds an overarching view of the essential elements, themes, and teachings of the worlds oldest surviving faith tradition Hinduism. Each theme is divided in easy to follow lessons. Highly philosophic content of Vedic chants is made simple enough for students as young as 5. For in-depth study, several appendices guide students into scholarly understanding of complex philosophic ideas such as the nature of reality, the nature of the mind, and the cosmic laws enshrined in the Vedic and post-Vedic texts. As a teacher with 20+ years of experience, the author presents ancient wisdom in simple language. Many books have been written about Hinduism, many of them incomplete and confusing.

This book will appeal to those seeking an easy to read, logical approach to both understanding and teaching Hinduism. The book will be useful to parents, grandparents, teachers and students alike.
