Graduate of the Royal Botanic Gardens, Kew, Chartered Landscape Architect, MBA and Barrister, Gordon Rowland Fraser draws upon 30 years of project management, professional practice and teaching experience to provide an uncomplicated and intuitive guide to the business aspects of the landscape profession. An indispensable reference for seasoned professionals, the book will enable the student or novice practitioner to turn their drawing board inspiration into reality without being overwhelmed or afraid of overseeing the implementation of their proposals. Guided by the Landscape Institute's 2013 Pathway to Chartership syllabus, this structured, step-by-step, narrative guide sets out the documentation commonly used within the landscape profession and makes accessible a logical and sequential understanding of contractual relationships; procurement strategies; processes of preparing client estimates and obtaining competitive quotations; of preparing contract documentation and administering formal contracts; general concepts of law as they relate to land management and the landscape profession; of business administration, market appraisal and positioning; and of the landscape consultant's appointment. As an understanding of professional practice is intrinsic to all Landscape Institute accredited courses, this is an essential text

Clay's Handbook of Environmental Health, since its first publication in 1933, has provided a definitive guide for the environmental health practitioner, or reference for the consultant or student. This 21th edition continues as a first point of reference, reviewing the core principles, techniques and competencies, and then outlining the specialist subjects. It has been refocused on the current curriculum of the UK's Chartered Institute of Environmental Health but should also readily suit the generalist or specialist working outside the UK.
